PART 2 – COMPLIANCE WITH PRINCIPLES OF DECISION MAKING

2.1 Finance and other resources

Effective internal audit is an essential part of the Authority's governance arrangements, both financial and non-financial. Internal Audit examines the Authority's systems of internal control, and the economy, efficiency and effectiveness with which resources are deployed. The audit of the Authority's activities promotes good financial governance and the importance of value for money. Effective control in these areas reduces the potential for financial loss through fraud, waste and inefficiency. There are no direct financial implications arising from the recommendations set out in this report.

2.2 Legal

The Accounts and Audit Regulations 2015 require the Authority to undertake an effective internal audit to evaluate the effectiveness of its risk management, control and governance processes, taking into account public sector internal auditing standards or guidance. The Public Sector Internal Audit Standards require that the Chief Internal Auditor should make arrangements for interim reporting to the organisation in the course of the year.

2.3 Consultation/community engagement

All Internal Audit reviews were shared with and reported to the relevant audit client upon conclusion of each audit assignment, with actions agreed by management. Management comments on the summary of key outcomes from Internal Audit reports have been included in the report.

2.4 Human rights

There are no human rights issues arising from this report.

2.5 Equalities and diversity

There are no equality and diversity issues arising from this report.

2.6 Risk management

Risks have been considered and there are no risks identified directly arising from this report.

2.7 Crime and disorder

There are no specific crime and disorder issues arising from this report. The work of Internal Audit is a key strand in the Authority's counter-fraud arrangements, as set out in the Strategic Audit Plan.

2.8 Environment and sustainability

There are no environment and sustainability issues arising from this report.
