3. Background Information

The Health Act 2009 requires all providers of NHS services in England (except those who have fewer than 50 full-time employees and provide under £130,000 of NHS services), including the independent sector to produce a Quality Account.

A Quality Account is a report about the quality of services provided by an NHS healthcare provider. Providers must send their Quality Account to the relevant Overview & Scrutiny Committee by 30 April each year, in North Tyneside this is the Adult Social Care, Health and Wellbeing Sub-committee.

Providers are required to ask for comments on their draft quality accounts from Overview and Scrutiny committees and comments received from these stakeholders must be included in the final published quality accounts which are submitted to the Department of Health by the end of June each year.
