

# Working Together for North Tyneside

Mark Adams, Paul Hanson, Jim Mackey  
North Tyneside Health and Wellbeing Board  
9<sup>th</sup> January 2020

# What we will cover

- Integrated Care Systems
- Integrated Care Partnerships
- Future Care
- What does that all mean for North Tyneside?

# But first...

- Always a lot of Proper Nouns and Systems
- And yes, health and social care are under pressure
- Actually, it is about people
- Across the NHS and North Tyneside Council
- A lot of people work hard every day to serve the Borough
- Some brilliant work
- Some things we could do better

# Integrated Care System

- NHS response to pressure on the system
- And the need to work differently
- Largely about collaboration to a large footprint
- For us; “North East and North Cumbria”
- Opportunity for commissioners and providers to work together
- Mechanism to handle pressure across the health system
- Context for higher level plan

# Integrated Care System II

- Local Government and social care do not fit easily
- 3 Combined Authorities
- Multiple LAs
- Four Police Forces
- Two Ambulance Service
- So
  - LA Chief Executive Representatives – Tees, North East, North Cumbria
  - Work through political engagement
  - Conversations with Health and Wellbeing Boards, Leaders and Mayors

# Integrated Care Partnership

- 3 Clinical Commissioning Groups
  - Newcastle-Gateshead
  - North Tyneside
  - Northumberland
- 4 Foundation Trusts
  - Cumbria, Northumberland, Tyne and Wear
  - Gateshead Health
  - Newcastle Hospitals
  - Northumbria Health Care
- 4 Local Authorities
  - Gateshead
  - Newcastle
  - North Tyneside
  - Northumberland

# Integrated Care Partnership II

---

- Based on patient flow and population
- Currently – Chief Executives
- What makes practical sense
- Clinical work
- Prevention
- Climate Change and sustainability
- Employment and skills

# Clinical work

- Helping each other out under pressure (ED, elective care, diagnostics and money)
- Number of joint appointments to recruit and retain the best (GI surgery, Spine surgery, potential in Cardiology and Gastro)
- Developing new services together (mechanical thrombectomy for stroke patients)
- Support services collaboration – Pathology for example, supply chain, clinical record/tech sharing, financial systems
- Formation and development of the Tyne Provider Alliance

# Prevention

## Place based through the Better Care Fund:

- Smoking cessation
- Cardio Vascular Disease

## Primary Care

- Part of all pathways and first contacts
- Smoking advice, alcohol brief interventions
- Early detection of atrial fibrillation in all GP surgeries
- Falls risk identification
- Social prescribing

# Prevention

## Secondary prevention

- Falls
- Obesity/ diabetes
- Long term condition pathways, Respiratory, CVD
- Mental Health & wellbeing
- Social Prescribing

## Integrated Care Partnership

- Working together “to go further faster”

## Integrated Care System

- Smoking cessation focus

# Climate Change and sustainability

- Each organisation engaged
- All four LAs have declared a Climate Emergency
- What can we do together and learn from each other
- Collaboration for local supply

# Employment and skills

---

- 7 NHS employers
- Huge range of roles
- Already committed to being a good employer
  - Work experience
  - Academic pathways
  - Apprenticeships
- Commitment to targeted recruitment in partnership with LAs
  - Post codes
  - Cohorts

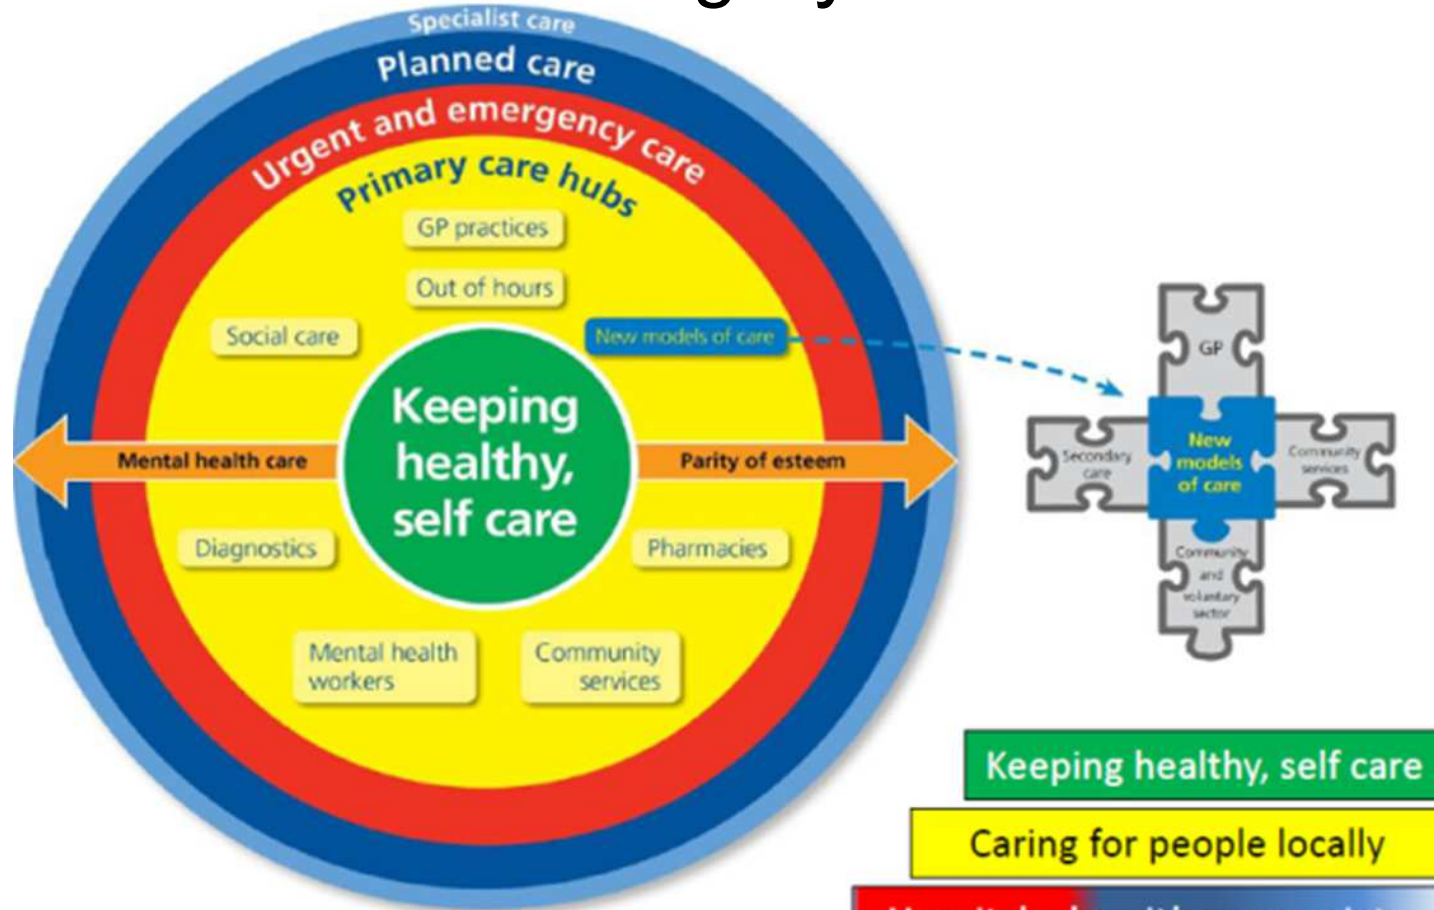

# Future Care – North Tyneside’s place based transformation board

- Children and Young People Board – delivering the strategy
  - Plus how NHS colleagues work as part of our Children’s Front Door and Locality Teams
- Older People – Integrated Frailty Services
  - Plus how we might work in localities to support Primary Care Networks
- Urgent & Emergency Care – systems response
- Mental Health – throughout life with partners including schools and Barnardos
- Learning disabilities & Autism – developing an autism strategy
- Living Well in North Tyneside – community, social care and voluntary services working together
- Improving Quality, managing variation - Right Care

# What does that all mean for North Tyneside? Health and Wellbeing System

# What does that all mean?

- Here matters
- People matter
- Relationships matter
- Set of practical projects to make sure we work well together

# Next Steps

- NHS colleagues, in particular, keen to have this work accountable to Health & Well Being Board
- Around March colleagues will bring back ICS & ICP Plans
