2018/19 Annual Governance Statement

1.0 Scope of Responsibility

North Tyneside Council is responsible for ensuring that its business is conducted in accordance with the law and proper accounting standards. It must make sure that public money is safeguarded and properly accounted for, and is used economically, efficiently and effectively. North Tyneside Council also has a duty under the Local Government Act 1999 to make arrangements to secure continuous improvement in the way in which its functions are exercised, having regard to a combination of economy, efficiency and effectiveness.

In discharging this overall responsibility, North Tyneside Council is responsible for putting in place proper arrangements for the governance of its affairs, facilitating the effective exercise of its functions, which includes arrangements for the management of risk.

North Tyneside Council has approved and adopted a Code of Corporate Governance, which is consistent with the principles of the CIPFA/SOLACE framework "Delivering Good Governance in Local Government". A copy of the Code can be found on our website or can be obtained from Legal Services. This Statement explains how North Tyneside Council has complied with the code and also meets the requirements of regulation 6(1)(a) of the Accounts and Audit Regulations 2015 in relation to the publication the Annual Governance Statement (AGS).

2.0 The purpose of the governance framework

The governance framework comprises the systems, processes, culture and values by which the Authority is directed and controlled. It sets out the activities through which it accounts to, engages with and leads the community. It enables the Authority to monitor the achievement of its strategic objectives and to consider whether those objectives have led to the delivery of appropriate, cost effective services.

The system of internal control is a significant part of that framework and is designed to manage risk to a reasonable level. It cannot eliminate all risk of failure to achieve policies, aims and objectives and can therefore only provide reasonable and not absolute assurance of effectiveness. The system of internal control is based on an ongoing process designed to identify and prioritise the risks to the achievement of North Tyneside Council's policies, aims and objectives. By evaluating the likelihood of those risks being realised and the impact should they be realised, it allows the Authority to manage them efficiently, effectively and economically.

An Annual Report is produced by the Chief Internal Auditor, part of which provides an opinion from Internal Audit on the overall adequacy and effectiveness of the Authority's control environment. This Statement includes any control issues that the Chief Internal Auditor has deemed significant and should be included within the AGS. These are identified where appropriate, and referenced to the Annual Audit Report.

The governance framework has been in place at North Tyneside Council for the year ended 31 March 2019 and up to the date of approval of the Annual Financial Report.

3.0 The governance framework

The governance framework is based on the core principles of corporate governance included in the CIPFA/SOLACE Framework. These principles are underpinned by key features that need to be in place to allow an authority to demonstrate that they comply with these principles. The diagram below sets out the seven fundamental principles:

The key features that underpin each of the core principles, together with examples of how the Authority achieves them are outlined in the following diagrams.

4.0 Review of effectiveness

North Tyneside Council has responsibility for conducting, at least annually, a review of the effectiveness of its governance framework including the system of internal control. The review of effectiveness is informed by the work of the Chief Executive, Director of Public Health and Heads of Service within the Authority who have responsibility for the development and maintenance of the governance environment.

Listed below are the processes that are applied in maintaining and reviewing the effectiveness of the governance framework on a continuing basis:

- **The Full Council** – The Full Council is responsible, within the scope of its responsibilities under law, for ensuring that the Authority’s business is conducted in accordance with the law and proper standards, and that public money is safeguarded and properly accounted for, and used economically, effectively and efficiently. All reports to Full Council document the financial, legal and operational implications of the decisions to be made. Reports are reviewed to ensure there are no governance issues identified or, where such an issue is identified, to ensure that it is appropriately addressed. The Elected Mayor, the Chief Executive and Chair of Council have signed this document;
- **The Council’s Executive** – The Council’s Executive comprising the Elected Mayor and Cabinet is responsible, within the scope of its responsibilities under the law, for ensuring that the Authority’s business is conducted in accordance with the law and proper standards, and that public money is safeguarded and properly accounted for, and used economically, effectively and efficiently. All reports to Cabinet document the financial, legal and operational implications of the decisions to be made. Reports are reviewed to ensure there are no governance issues identified or, where such an issue is identified, to ensure that it is appropriately addressed. The findings of the AGS are reported to, and discussed with, the Elected Mayor;
- **Head of Paid Service** – The Head of Paid Service is responsible for the corporate and overall strategic management of the Authority’s staff in accordance with Section 4 of the Local Government and Housing Act 1989;
- **Chief Finance Officer** – The Chief Finance Officer (CFO) has statutory duties in relation to the financial administration and stewardship of the Authority arising from Section 151 of the Local Government Act 1972. The CFO has completed a governance statement which outlines the arrangements that are required to ensure that the CFO duties can be carried out effectively. The statement is based on “The Role of the Chief Finance Officer” published by CIPFA;
- **Monitoring Officer** – The Monitoring Officer has responsibility for promoting and maintaining high standards of conduct and reporting any actual or potential breaches of the law or maladministration to the Full Council and/or to the Cabinet as set out in Section 5(2) of the Local Government and Housing Act 1989;
- **The Senior Leadership Team** - The Senior Leadership Team acts as the organisation’s overall ‘management board’, providing strategic direction to enable the business of the Authority to be undertaken. The Team provides

ultimate assurance to the Cabinet and non-executive Members in relation to the governance arrangements in place. The AGS is reviewed by the Senior Leadership Team as part of the production of the Statement;

- **The Audit Committee** - The Audit Committee improves corporate governance by reviewing the stewardship of the Authority's resources. The Audit Committee enhances the profile of audit throughout the Authority and enables it to be strong and effective. The findings of the annual governance review are reported to the Audit Committee. The terms of reference of the Audit Committee state that they receive the information necessary to undertake an annual review of the effectiveness of the Authority's system of internal control, will agree the methodology for the preparation of the AGS and will monitor the action plan prepared to address the issues identified in the AGS;
- **Overview, Scrutiny & Policy Development** - The Overview, Scrutiny & Policy Development Committee is about improving services for the people of North Tyneside by influencing decision makers. This is achieved by: acting as a critical friend to the Elected Mayor and Cabinet, investigating issues of interest and concern to communities within North Tyneside, involving communities in its work and making recommendations to decision makers on how services can be improved. There are currently seven Overview, Scrutiny & Policy Development sub-committees which cover all Authority services:
 - Finance;
 - Adult Social Care, Health and Well Being;
 - Children, Education, and Skills;
 - Environment;
 - Economic Prosperity;
 - Housing; and
 - Culture & Leisure
- **Standards Committee** - The Standards Committee is responsible for the promotion and maintenance of high ethical standards within the Authority, helping to secure adherence to the Members' Code of Conduct, monitoring the operation of the Code within North Tyneside, the provision of training to members in relation to the Code and to requirements for disclosure of interests. The Committee also promotes and reviews the Whistleblowing Policy for Members and conducts hearings following investigation and determines complaints made against Councillors in respect of alleged breaches of the Code of Conduct (including following requests for review);
- **Health & Wellbeing Board** – The Health & Wellbeing Board is in place to ensure that there is an integrated approach to the provision of health and social care services in the area. The Board is responsible for: encouraging the commissioners of health and social care services to work in an integrated manner to improve the health and wellbeing of people in the area, including the making of joint arrangements; preparing a Joint Strategic Needs Assessment, Joint Health and Wellbeing Strategy and Pharmaceutical Needs Assessment; and encouraging the commissioners of health-related services, such as housing, to work closely with the Board and the commissioners of health and social care services. The Authority's Director of Public Health and statutory Director of Adult Social Services and Children's Services form part of the Adult Social Care, Health & Wellbeing Board;

- **Corporate Assurance Group** – The Corporate Assurance Group consists of the Chief Executive, statutory Director of Adult Social Services and Children’s Services and other senior officers involved in Safeguarding. The Group not only provides adequate and regular assurance for the statutory functions for Adult and Children’s Services, but enables a strategic discussion of trends, pressures, special measures for specific establishments/service areas or client groups. It also enables the performance, engagement and resource commitment of partners to be kept under review, as well as providing a regular link with the Safeguarding Board Chairs. A primary function of the Group is to provide the evidence by which the Chief Executive, Elected Mayor and Cabinet Members fulfil their statutory responsibilities to adults and children within the borough – in both a retrospective scrutiny of performance and a forward view of pressures and challenges facing the services – which will inform corporate decisions on resources and capacity;
- **Internal Audit** – Internal Audit plays a key role in the assessment of the control environment. Although part of the Authority’s overall control framework, Internal Audit is not a substitute for effective internal control. The Chief Internal Auditor provides an annual summary of the results and conclusions of the year’s work, this report includes an opinion on areas included within the AGS;
- **Risk Management Groups** – Risk Management is undertaken at operational, strategic and corporate level and is also a main element of managing our key projects and partnerships. The Authority’s Senior Leadership Team takes an active part in ensuring that strategic risks are identified and managed taking into consideration the Authority’s priorities. Those strategic risks that are exceptional in nature are managed at corporate level and are jointly owned by the relevant member of the Senior Leadership Team and Cabinet Member. All risks are reviewed on a regular basis by the relevant risk management group and governing body to ensure that they are being managed effectively, with progress reported to Senior Management, relevant Board, Senior Leadership Team, Cabinet, and the Audit Committee;
- **External Audit** - Officers meet regularly with the External Audit team, who also attend key Council meetings. Action plans are formulated to address any formal recommendations raised by external inspectors. The views of our external auditors are expressed through the Annual Audit Letter and the Audit Completion Report; and
- **Partnerships** - a monthly Operational Partnership Board (OPB) is attended by key officers within the Council and the Partner. The Cabinet Member for Finance and Resources (for ENGIE) and the Cabinet Members for Housing, Environment & Transport and Community Safety & Engagement (for Capita) also attend the relevant meeting. The OPB is the main interface between North Tyneside Council and ENGIE/Capita. It provides a forum for the day-to-day management of the Partnership and is responsible for ensuring that performance targets are met, that the payment and performance mechanism operates correctly, that a high-performance relationship and culture is developed and that problems or issues and contract variations are resolved. The OPB reviews performance and budget reports from the relevant Partner and any risks or issues escalated to it by ENGIE/Capita or the Commercial Services Team. The OPB escalates risks and issues to the Strategic

Partnership Board, which in turn escalates risks and issues to Cabinet as appropriate.

All of the above work has been used in compiling this Statement and arriving at an assessment of the internal control arrangements in place within the Authority.

5.0 Overall assessment of Governance Arrangements in place

Any system of internal control can provide only reasonable and not absolute assurance that assets are safeguarded, that transactions are authorised and properly recorded, that material errors or irregularities are either prevented or would be detected within a timely period and that significant risks impacting on the achievement of the Authority’s objectives have been mitigated.

The annual report produced by the Chief Internal Auditor has been reviewed and there are no significant governance issues that were identified. See “Annual Governance Statement 2018/19” section of the Internal Audit Service report “2018/19 Opinion on the Framework of Governance, Risk Management and Control”.

As a result of reviewing the evidence outlined, the Senior Leadership Team has taken the view that as a whole, the governance arrangements in operation during 2018/19 within the Authority were adequate.

5.1 Outlook

As a result of reviewing the evidence outlined in sections 3 and 4, together with the Authority’s assurance statement, some issues were identified that will need to be monitored during 2019/20. These issues relate to the changing nature of the Authority and local government as a whole. If the Authority failed to address these challenges properly it may result in future governance issues. Outlined below is a summary of these key challenges:

<p>Information Governance – there is a risk in relation to information governance that unless there are robust policies and systems in place and implemented there is a possibility that sensitive data may be lost. If the Authority fails to have robust policies in place there is a risk that the Data Protection Act could be breached leading to fines and compensation claims.</p>	<p>Some information held by the Authority is extremely sensitive in nature which requires robust policies and systems to be in place to ensure that it is as secure as possible, and that staff are fully aware of the procedures that they need to follow when dealing with such information.</p> <p>From May 2018 the General Data Protection Regulation (GDPR) came into force. The GDPR sets out a number of new requirements for organisations. The new regulation places greater emphasis on accountability, for example informing residents in more detail about how the Authority will handle their data, shorter timescales for dealing with subject access requests and breaches, increased fines for non-compliance, data protection impact assessment (DPIA) must be carried out prior to commencing new processing activities, considering data privacy and protection at the start of a project (also known as Privacy by Design).</p>	<ul style="list-style-type: none"> • Compulsory e-learning in respect of information sharing and information governance awareness training. A Data sharing Agreement is also in place for the Trading companies. • Strategic Information Governance Officer – providing a corporate approach working with day to day managers of the information governance processes and procedures, ensuring a training plan is in place and implemented. • The Authority has appointed a new Senior Information Risk Owner at SLT level, which will oversee Information Governance operations. • Work is continuing to embed data protection legislation across the Authority. Privacy Notices have been produced, the procedure for data protection requests has been reviewed and implemented and the
